HAWAII SHINPO SHA.

THE PIONEER JAPANESE PRINT. 'ng office. The publisher of Hawaii shinpo, the only daily Japanese paper published in the Territory of Hawaii C. SHIOZAWA, Proprietor.

Editorial and Printing Office—1034
Smith St., above King. Phone Main 44.

The only arrival of importance which is expected today is that of the Toyo Kisen Kaisha steamship Hongkong Maru, due from the Orient this afternoon. She will probably bring in a number of Japanese immigrants and a considerbale cargo of freight for this city. As this last will take some time to discharge, it is not likely that she will leave for the Coast before 11 o'clock Saturday morning, when she will take mail but no passengers or freight, being under a foreign flag.

CONCORDIA SAILED.

The news arrived last night, through the Merchants' Exchange report, that the bark Concordia, bound for this city with a cargo of phosphates, left Iquique on' October 24. She arrived at the nitrate port on August 23, but has been held up for some time. Before that she had made the trip to the nitrate port from Newcastle, New South Wales.

MONGOLIA NEARLY READY.

The Pacific Mail steamship Mongolia, which has been in drydock for some time as the result of her unpleasant experience at Midway a year ago, will leave San Francisco for the Orient, via this port, a week from Saturday and, from the reports which have reached here, should earry a full list of passengers, which means a good deal when her size is considered. With her arrival the beginning of the tourist season will be started, though the rush will not commence for about a month

Captain Hathaway, who has been in command of the Mongolia since Captain Porter left her, has been in charge during the making of repairs, which were of a number of plates on her hull, Hathaway is not very well known here, as he has only made a few trips through, but in that short time has become unusually popular with those who have traveled with him. He is a younger man than most of the Pacific Mail captains and came to the service from the Atlantic coast.

MAY DO WORK HERE.

The fact that the contract for repairs on the revenue cutter Manning was awarded to the Union Iron Works for a little over \$14,000, makes it evident that she will not be redecked in San Francisco. The only work which will be done on her there, it appears, would be more or less dissatisfaction. will be on the hull, as repairs to the she ran ashore.

WM. B. STOCKMAN,

MARINE Doctor Said Consumption

Mr. Andrew Mayer of 470 Grove St., Brooklyn, N. Y., contracted a severe cough, which continued so long that the doctor said he had bronchitis or consumption and after he tried his doctor's prescription, and received no relief, he decided to use DUFFY'S PURE MALT WHISKEY, which finally cured him and restored his health and strength.

Letters like the following are received daily telling of some marvelous cure due to the timely use of DUFFY'S PURE MALT WHIS-KEY, as prescribed:

"I had a severe cough for some time and became extremely alarmed because my physician told me I had bronchitis and another said I had consumption. As I received little benefit from the remedies prescribed for me I began to think what the doctors had said was only too true. I finally decided to take DUFFY'S PI RE MALT WHISKEY, with little hope of the result that followed. Slowly the coughing spells lessened in frequency and the quantity thrown up also became less, and my strength which had sadly failed, is now as good as ever. I feel that I am saved, and that I owe my good fortune to the timely use of DUFFY'S PURE MALT WHISKEY."—ANDREW MAYER, 470 Grove St., Brooklyn, N. Y., Oct. 30th, 1906.

Duffy's Pure Malt

is distilled wholly from malted grain by a most expensive method which has never been made public and this private process insures quality and flavor. Its age, softness, palatability and freedom from those injurious substances found in other whiskies make it acceptable to the most sensitive stomach.

It acts as an antitoxin which destroys and drives out all disease germs. Its results are free from that depressing effect caused by poisoning the blood with many medicines. It is a tonic and invigorant for old and young, and its medicinal properties make it invaluable to overworked men, delicate women and sickly children. Duffy's Pure Malt Whiskey has been analyzed many times by the best chemists during the past fifty years and has always been found to be absolutely pure.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Mait Whiskey be sure you get the genuine. It's the only absolutely pure medicinal mait whiskey and is sold in sealed bottles only; never in bulk. Look for the trade-mark, the "Old Chemist," on the label, make sure the seal over the cork is unbroken and that our guarantee is on every bottle. Price \$1.00, Illustrated medical bookiet and doctor's advice free. Duffy Malt Whiskey Co., Rochester, N. Y.

near future and it is very probable that this work will be done here, as it will be no more expensive than if done on the Coast, and, with dry weather, much better work can be done. If done on the Coast in the winter season the rainy weather would mean extra expense and with timbers swollen by rain there

The work on the Manning should be injuries incurred in Bering Sea when completed by the first of February and she may be expected here about the Her decks must be renewed in the middle of that month. Her return will be very pleasing to the local people though it is hardly likely that there will be many of her old officers on board when she arrives. Lieut.-Comdr. Joynes has asked for duty on the Atlantic coast. Lieutenants Munter, Lewton and McCowan have all left the vessel and Lieutenants Shea and Austin, who joined just before she left for the north, have few acquaintances here. It is hard to say who will be in command, as Captain Cantwell has been detached for other service.

THE WILDER DAMAGED.

ABERDEEN, Oct. 24.-The steamer Newburg today rammed the barkentine S. G. Wilder while the latter vessel was lying at the dock of the Grays Harbor Lumber Co., in Hoquiam. The latter vessel sustained about \$500 dam-

MANY COMING TO HONOLULU

Commerce, for another Southern California excursion. The parties pushing the project hope to be able to charter the Sierra and expect to make the trip sometime in January.

Mr. C. B. Yandall, secretary of the Seattle Chamber of Commerce, is very confident of being able to carry out his plans for a big winter excursion from Puget Sound.

There will be, at least, three excurions this season, if satisfactory arrangements can be made for suitable steamers.

The regular travel also bids fair to

e good. A letter from Mrs. Miller, of Leslie's Weekly, states that her article on 'Automobiling in Hawaii" will appear A letter from Mr. Sliverstone, agent

of the Pacific Mail Steamship Company at Hongkong, states that he is now supplying Singapore, Calcutta and Colombo regularly with our folders. By the Hongkong Maru we will send number of photographs to New York to be used by the North German Lloyd Steamship Company in one of their

The September number of the Hamburg American Gazette has quite an interesting article entitled "Joys of Life in Hawali," thus we are gradually obtaining recognition from the Atlantic steamship companies, as well as from those operating on the Pacific.

A letter from the secretary of "The Welcome Society" of Tokio, Japan,

practically assured and it will not be iong before visitors, making the trip to the top of the mountain, can be

assured of a comfortable night's rest. The Fresno (California) Republican of October 13 publishes an interesting article entitled "Doing Hawsiian Islands with the Megaphone Man," the purpose of the article being to awaken interest in the paper's trip to Honolulu voting contest.

SUGAR IN BREAD.

Readers of The American Sugar Industry and Beet Sugar Gazette, that paper says, will recall an article, published Aug. 5, from the French writer M. F. Dupont proposing a "Plan for Increasing the Consumption of Sugar by Using it in the Manufacture of Bread." They will be glad to learn that experiments are actually being conducted by M. Dupont for the purthat of the Los Angeles Chamber of pose of introducing the use of sweetened bread into the French army. The price of flour in France is at present 33.75 francs per 100 kilograms. A removal of the excess tax on sugar would enable the manufacturers to supply it at 30 franes per 100 kilograms to the bakers. This would make the use of sugar more economical for the baker than flour, and there would probably be an increased consumption of bread Now Open that contained 5 per cent of sugar, since most human beings possess a sweet tooth; while the nutritive value of sugar is considerably greater than that of flour. The outcome of present in the October 31st number of that experiments will be watched with interest on both sides of the Atlantic.
